

T6 in RENO!

Alex flies the #33 T6 out in Reno. Alex and Jay both got checked out in this recently completed T6 restoration.

#33 is Dennis Buehn of Carson City Nevada's latest Racing creation. She's light and FAST!

Alex and Jay were in Reno for the Pylon Racing School for the RENO AIR RACES. Unfortunatley, the RARA (Reno Air Racing Association) Board decided at the last minute that Alex was too young at 17 to participate! Although there is no age limit in the current rules, they had liability concerns.

The T6 was great to fly and Alex put together a fun aerobatic routine which he flew each day. The T6 has more performance than the CJ6 and a good bit more rudder. She can be a pig on the ground however, and you've got to stay on those pedals

You'll probably see this aircraft Racing at Reno in September
